

Industry Liaison Office

CONNECTING

OHIO STATE TO THE
NEEDS OF INDUSTRY

Who We Are

The mission of the Industry Liaison Office (ILO) is to cultivate and foster mutually beneficial relationships with corporations worldwide by supporting their innovation and research needs and aspirations through access to Ohio State's faculty, students and assets.

What We Do

The ILO will work with you to identify areas of mutual interest and connect you with the Ohio State resources who will be your partners in the creation of value-added outcomes. We look at the big picture when structuring potential relationships in order to leverage synergies on your behalf across Ohio State's student engagement options, innovation and research capabilities, technology portfolio and philanthropic opportunities. We then assemble the optimal alliance support team in partnership with other university external engagement specialists to assure your specific needs are met, guided by dedicated relationship management at the nexus of our partnership.

Throughout this process, we are committed to:

- Nurturing trusting, collaborative relationships that result in win-win engagements
- Establishing unique differentiators that enhance the attractiveness of partnering with Ohio State
- Ensuring experiences that consistently meet or exceed your highest expectations
